

REMARKS

Upon review of the subject application, Applicants discovered that the first paragraph of the specification would need to be amended. Specifically, information of the copending application, now U.S. Patent No. 6,707,801, has been updated. No new matter is involved.

The aforementioned amendment of the specification should have been included at the time of prosecution but was inadvertently left out. Entry of the amendment is respectfully requested.

Should the Examiner have any questions or comments regarding these amendments, he/she is cordially invited to telephone the undersigned at his convenience.

In the event of any fees that may be due or any overpayments that may be associated with this response, please charge or deposit the amount of Deposit Account No. 170026.

Respectfully submitted,
